About us

Have something interesting to say and say it in an interesting way.

Myself IPPO, I have been based in Chennai since 2011 and operate in south India with all kinds of advertising and marketing promotions.

I believe in the quote "Get Closer than ever to your customers, so that you tell them what they need well before they realize it themselves" & have experienced in knowing the customer pulse by generation and reaching your product to bottom, mid -level, high-end customer, with the respective strategy.

The only people who care about advertising are the people who work in advertising. So, I collage with young, dynamic, creative, experienced & strategic explorers who are brainstorming & executive the work in a effective manner. Expertise in **Ad film making, Corporate video, Jingles, Photography, Event Management, Trade shows & Expos Stall Make, Collateral Creations** (Brochure, leaflet, posters, dangles, presentation folders, corporate files, postcards, notepads, wristbands) and all kind of **Corporate Signage and Shop Name Boards**

"Promise, large promise is the soul of an advertisement & the most powerful element in advertising is truth" is my mantra and flowing through my veins ever.

am following it. So if the failure comes,
change the way, not the destination.
