About Us

The Finance Club at IIT Madras is a student-run body building a serious finance culture inside the institute — through workshops, case competitions, speaker sessions and an active trading community that runs all year.

A multi-day fest of competitive events, workshops and an open stage where students apply what they've learned against real problems and real practitioners, one of previous edition ran a crypto summit, a quant hackathon, a finance workshop series and stock trading competitions.

What Happens at the Fest

A multi-day fest of competitive events, workshops and an open stage where students apply what they've learned against real problems and real practitioners.
