Explore Our Exclusive Sanitaryware Collection

The KONET SHOWCASE offers you a wide variety of products that suite every taste and transform the personality of your bathroom. We have put all our efforts to design the products which reflect your persona and class. We help make your bathroom a place that is a reflection of you - one which expresses your individual style and answers all the needs of your family and home.

MADE IN INDIA

Rimless Technology

- Large water surface offers easy cleaning
- Extra large siphon jet for maximum power
- Elegant skirted design offers easy cleaning
- Large computer designed, fully glazed trap way reduces clogging

How Does it Work ?

A Rimless toilet is simply a toilet without a traditional rim. Instead of water flowing into the bowl all the way round the rim, a direct flush technique shoots water around the edge of a smooth pan. As there is no rim, rimless toilets are easy to clean and more hygienic than a traditional toilet.

Comfortable Height

This system enable quick asseby and disassembly of the toilet seat for easy cleaning of the seat itself and the sorrounding area, which is often difficult to clean.

Easy To Clean

This system enables quick assembly and disassembly of the toilet seat for easy cleaning of the seat itself and the surrounding area, which is often difficult to clean.

Easy Detach

The new quick-release hinges allow removing the toilet seat with a simple and quick gesture thanks to special hinges fitted with side buttons. In fact, the seat can easily be disengaged from the guides by simply pressing both buttons and pulling it upwards. The two hinges can then be brought back to the locked position by replacing them on the guides and pushing downwards.

INSTALLATION METHOD

WALL HUNG PRODUCTS

As per shown in the picture, the rag bolt must be grouted into the cement/concrete wall. The bolts must be fixed to the cement/concrete wall. Allow setting & checking than install it using nut and washer.

COUNTER WASH BASIN

At the beginning

- A skilled or experienced person should install counter lavatories.
- Avoid using adhesive with this product.
- Check the waste area and supply tubing if required.
- Do not open the lavatory from its protective carton until you are ready for installation. Please follow all local building and plumbing codes.

MATERIAL & TOOLS

Measure tape, Keyhole or saber saw, Hammer, Glasses, Rags or Paper toweling, Drill (1/2 dia, drill bit or larger), Pencil, Sealant, Sharp knife or scissors.

INSTALLATION OF LAVATORY

Please Note: Please install it in a way that future removal from underneath the counter top is possible without damaging the counter top.

- Please check the desired location for clearance between the back splash, faucet, fixture and cabinet.
- Please cut the template.
- Please carefully trace the template on the counter top directed.
- Please mark the faucet hole centerline in the counter top.
- Please drill a 1/2" pilot on the inside of the cut line.

FOR WOOD COUNTER TOPS:

Mark and pre-drill the wood screw holes at the locations shown on the template. Waterproof any exposed areas of wood.

FOR MARBLE COUNTER TOPS:

Position the counter top upside down on the foam padding to protect the surface. Mark and drill 3/6" holes 5/8" deep at the locations shown in the template. Use a setting tool and hammer to secure the anchors.

FOR ALL INSTALLATIONS:

If the counter top has not been installed, install it at this time.

Drill the faucet holes according to the faucet installation instructions.

Install the faucet to the counter top according to the manufacturer's instructions.

Install the drain to the lavatory according to the manufacturer's instructions.
