Attack

108MP High-res Camera with OIS

Capture ultra-clear, shake-free photos and 4K videos with OIS – far ahead of Samsung's 50MP setup.

Powerful Snapdragon® 6 Gen 3

With ~850K+ AnTuTu score – it is faster, smoother, & more efficient than Exynos 1380.

Segment's Slimmest and Lightest

Just 7.35mm thin & 178g light – significantly more comfortable to hold than Samsung's 200g bulky body.

3D Curved AMOLED | 3200nits Peak Brightness

Large 6.77" Curved AMOLED Display provides an immersive experience comparatively to a flat display. Nearly 3.2x brighter than Samsung (1000nits).

18W Reverse Charging Support

Charge accessories and other phones with 18W, whereas Samsung doesn't support reverse charging.

Defend

Super AMOLED

While the Samsung offers a flat Super AMOLED display with 8-bit (16 Million colours), the Redmi Note 15 5G takes the experience further with a 3D curved AMOLED display and 12-bit colour depth (68 Billion colours).

This means richer colours, smoother gradients, and more lifelike visuals, making videos, photos, and games look noticeably more immersive.

IP67 Rating

IP66 is more than enough for daily use, protecting the phone from dust, rain, and splashes.

Higher IP ratings are for extreme conditions that most users never face, we deliver value for money features without unnecessary features.

Attack

108MP High-res Camera with OIS

Capture ultra-clear, shake-free photos and 4K videos with OIS – far ahead of Realme's 50MP setup.

Powerful Snapdragon® 6 Gen 3

With ~850K+ AnTuTu score – it is faster, smoother, & more efficient than MTK Dimensity 6400 Max.

Segment's Slimmest and Lightest

Just 7.35mm thin & 178g lightweight design makes it significantly more comfortable to hold.

3D Curved AMOLED | 3200nits Peak Brightness

Large 6.77" Curved AMOLED Display provides an immersive experience comparatively to a flat display. Dolby Atmos provide clear, rich, and powerful sound.

18W Reverse Charging Support

Charge accessories and other phones with 18W, whereas Realme doesn't support reverse charging.

Defend

7000mAh Battery | 60W Fast Charge

Even with 5520mAh, power-efficient 4nm chipset + AMOLED optimization delivers all-day performance ~1.6 DOU, similar to Realme's. Redmi's 45W Turbo Charging with Battery Health 4.0 & Smart Charging 2.0 ensures longer battery life. It can charge up to 50% in just 30 minutes.

4000nits Peak Brightness

While some competitors claim 4000 nits, that level is achieved only on a very small part of the screen (around 1% OPR) whereas the Redmi Note's 3200 nits peak brightness works across a much larger screen area (around 25% OPR). When compared side-by-side, the brightness looks at par and more consistent.

50MP Selfie Camera

Even with 20MP Selfie Camera, Note 15 provides clear & detailed selfies which is sufficient for selfies at one-hand distance.

Attack

108MP High-res Camera with OIS

Capture ultra-clear, shake-free photos and 4K videos with OIS – far ahead of Vivo's 50MP setup.

Powerful Snapdragon® 6 Gen 3

Up to 2.4GHz clock speed & ~850K+ AnTuTu score – faster, smoother, & more efficient than SD® 4 Gen 2.

Segment's Slimmest and Lightest

Just 7.35mm thin & 178g light – significantly more comfortable to hold than Vivo's 198g bulky body.

3D Curved AMOLED | 3200nits Peak Brightness

Large 6.77" Curved AMOLED Display provides an immersive experience comparatively to a flat display. Nearly 2X brighter than Vivo (1800nits).

18W Reverse Charging Support

Charge accessories and other phones– missing in Vivo.

Defend

32MP Selfie Camera

Even with 20MP Selfie Camera, Note 15 provides clear and detailed selfies which is sufficient for selfies at one-hand distance.

6000mAh Battery

Even with 5520mAh, power-efficient 4nm chipset + AMOLED optimization delivers all-day performance without extra bulk with ~1.6 DOU, similar to Vivo's.

90W FlashCharge

Redmi's 45W Turbo Charging with Battery Health 4.0 and Smart Charging 2.0 ensures longer battery life. It can charge up to 50% in just 30 minutes. Retains ≥80% battery health even after 1600 cycles.

400% Volume Boost

While Vivo claims 400%, Dolby® Atmos™ tuning on Redmi with 300% Super Volume delivers superior clarity & surround sound, not just loudness.

x

Attack

200MP MasterPixel Camera
REDMI is equipped with a large HPE 1/1.4" sensor, f/1.7 aperture & 7P lens captures sharper images with better details, and shows better HDR & low-light performance compared to Vivo's 200MP setup with a smaller sensor, f/1.8 aperture & 6P lens.

REDMI Titan Structure
Corning® Gorilla® Glass Victus® 2, IP66 + IP68 IP69 + IP69K ratings, SGS 5 Star & TÜV SÜD certifications, makes REDMI reliable and far more durable than Vivo.

Crystal-Resolution | 12-bit Display
REDMI features a 1.5K display with 68.7B colors, delivering better clarity and richer colors than Vivo's FHD+ 10-bit display.

Cinematic OTT Experience
REDMI supports Dolby Vision® | Atmos® for a true cinematic OTT experience, with up to 400% volume boost, which Vivo lacks.

Reverse Wired Charging
REDMI supports 22.5W Reverse Wired Charging to power earbuds, tablets or even another phone, which Vivo lacks.

Defend

MediaTek Dimensity 7360-Turbo
While both phones uses Dimensity 7-series chipsets, REDMI's Dimensity 7400-Ultra is newer and superior compared to Vivo's Dimensity 7360-Turbo, delivering faster and smoother performance.

5000nits Peak Brightness
REDMI offers higher HBM brightness and more usable peak brightness across a larger 25% screen area, delivering better outdoor visibility than Vivo, whose peak brightness is limited to (1% screen area) and HBM is lower.

90W FlashCharge
Vivo offers faster wired charging on paper, but REDMI balances speed with battery health (TÜV SÜD certified) while adding reverse charging support, making it more versatile in daily use.

50MP Selfie Camera
Even with 20MP Selfie Camera, REDMI provides clear and detailed selfies which is sufficient for selfies at one-hand distance.

REDMI supports Dolby Vision® | Atmos® for a true cinematic OTT experience, with up to 400% volume boost, which Oppo lacks.

Reverse Wired Charging
REDMI supports 22.5W Reverse Wired Charging to power earbuds, tablets or even another phone, which Oppo lacks.

Defend

7000mAh Battery
Although Oppo offers a slightly larger battery, the days of usage remain similar to what REDMI provides with a 6580mAh battery (TÜV SÜD certified) offering both convenience and safety.

80W UltraCharge
Oppo offers faster wired charging on paper, but REDMI balances speed with battery health (TÜV SÜD certified) while adding reverse charging support, making it more versatile in daily use.

Snapdragon® 7 Gen 3
While both devices are powered by similar chipsets in terms of efficiency and performance, Oppo's SD 7 Gen 3 is a generation older compared to REDMI's latest MTK Dimensity 7400-Ultra.

32MP Selfie Camera
Even with 20MP Selfie Camera, REDMI provides clear and detailed selfies which is sufficient for selfies at one-hand distance.

Attack

200MP MasterPixel Camera
REDMI is equipped with a large HPE 1/1.4" sensor, f/1.7 aperture & 7P lens captures sharper images with better details, and shows better HDR & low-light performance compared to realme's 200MP setup with a smaller sensor, f/1.8 aperture & 6P lens.

REDMI Titan Structure
Corning® Gorilla® Glass Victus® 2, IP66 + IP68 IP69 + IP69K ratings, SGS 5 Star & TÜV SÜD certifications, makes REDMI reliable and far more durable than realme.

Crystal-Resolution | 12-bit Display
REDMI features a 1.5K display with 68.7B colors, delivering better clarity and richer colors than realme's FHD+ 10-bit display.

Cinematic OTT Experience
REDMI supports Dolby Vision® | Atmos® for a true cinematic OTT experience, with up to 400% volume boost, which realme lacks.

Reverse Wired Charging
REDMI supports 22.5W Reverse Wired Charging to power earbuds, tablets or even another phone, which realme lacks.

Defend

7000mAh Battery
Although realme offers a slightly larger battery, the days of usage remain similar to what REDMI provides with a 6580mAh battery (TÜV SÜD certified) offering both convenience and safety.

80W UltraCharge
realme offers faster wired charging on paper, but REDMI balances speed with battery health (TÜV SÜD certified) while adding reverse charging support, making it more versatile in daily use.

6500nits Peak Brightness
REDMI offers higher HBM brightness and more usable peak brightness across a larger 25% screen area, delivering better outdoor visibility than realme, whose peak brightness is limited to (1% screen area) and HBM is lower.

50MP Selfie Camera
Even with 20MP Selfie Camera, REDMI provides clear and detailed selfies which is sufficient for selfies at one-hand distance.

Attack

Defend

200MP MasterPixel Camera
Powered by a large HPE Sensor | 7P Lens, REDMI captures sharper photos with better details comparatively to Oppo's 50MP.

REDMI Titan Structure
Corning® Gorilla® Glass Victus® 2, IP66 + IP68 IP69 + IP69K ratings, SGS 5 Star & TÜV SÜD certifications, makes REDMI reliable and far more durable than Oppo.

3200nits 1.5K Quad-curved Display
REDMI's 1.5K quad-curved display with 3200nits Peak brightness, 68.7B colors delivers vivid visuals & better outdoor visibility than Oppo's FHD+ flat AMOLED with lower HBM & color depth.

Cinematic OTT Experience
REDMI supports Dolby Vision® | Atmos® for a true cinematic OTT experience, with up to 400% volume boost, which Oppo lacks.

Faster Charging | Extra Power
REDMI's 100W HyperCharge takes the phone to 100% in about 40 minutes. It also supports 22.5W Reverse Charging to power earbuds, tablets or even another phone, which Oppo lacks.

16.69cm(6.57) Compact Size
A compact screen works for basic use, but today most users watch OTT content, do video calls, and game on their phones. Our larger 17.35cm(6.83) display delivers a more immersive and comfortable viewing experience, ideal for all-day use.

7000mAh Battery
Although Oppo offers a slightly larger battery, the days of usage remain similar to what REDMI provides with a 6500mAh battery (TÜV SÜD certified) and significantly faster 100W charging, reducing downtime and offering both convenience and safety.

50MP Selfie Camera
Even with 32MP Selfie Camera, REDMI provides clear and detailed selfies which is sufficient for selfies at one-hand distance.

Attack

Defend

200MP MasterPixel Camera
REDMI's 200MP primary camera with a large HPE sensor, large aperture and 7P lens captures more detail with better HDR and low-light performance than Samsung's 50MP, along with a superior 32MP selfie camera over Samsung's 12MP.

REDMI Titan Structure
Corning® Gorilla® Glass Victus® 2, IP66 + IP68 IP69 + IP69K ratings, SGS 5 Star & TÜV SÜD certifications, makes REDMI reliable and far more durable than Samsung.

Powerful Performance
Powered by Snapdragon 7s Gen 4, REDMI delivers clearly stronger performance than Samsung's Snapdragon 6 Gen 3 (older generation), with higher clock speeds (up to 2.7GHz) and ~1M+ AnTuTu score (v11) for smoother multitasking and gaming.

Massive Battery | Faster Charging
REDMI's massive 6500mAh battery with 100W HyperCharge and 22.5W reverse charging is far ahead of Samsung's 5000mAh battery & slower 45W charging with no reverse charging support.

Super AMOLED Display
Samsung's Super AMOLED sounds good on paper, but REDMI provides a large 6.83" 1.5K Quad-Curved AMOLED with 68.7B colors, 3200nits peak brightness delivers sharper visuals, richer colors & superior outdoor visibility, while Dolby Vision® | Atmos® & 400% volume boost ensure a truly cinematic OTT experience, far beyond Samsung's FHD+ flat Super AMOLED with 16M colors, lower brightness (1200nits HBM) and no Dolby Vision support.

REDMI 15 5G

Attack

Segment's Largest 7000mAhA Battery:

- Designed with EV-grade Silicon Carbon Technology,
- 2.3 days of battery life on moderate usage.
- 18W Reverse Charging, it can help power your devices anytime, anywhere.

Snapdragon® 6s Gen 3 chipset

- Segment's first and only smartphone.
- Seamless multi-tasking and higher AnTuTu score than competition in this price segment.

Segment's Largest 17.53cm (6.9) FHD+ Display

- Ultra-smooth 144Hz Refresh Rate.
- Delivers a mAhA Immersive Viewing Experience – perfect for binge-watching.

What is NEW??

- Introducing all-new Royale Chrome Design.
- Segment's only Aerospace-grade Metal Camera Deco.
- At 8.4mm, it is Segment's Slimmest 7000mAhA battery smartphone.

Defend

33W Fast Charging with Smart Charging Engine 2.0

- Powers 7000mAhA battery efficiently.
- Far superior to the competition's previous-gen batteries with 45W charging.

850nits Peak Brightness

- Display stays clear and visible in most conditions
- Is at par with 1000nits of competition.
- Triple TÜV Rheinland Certification ensures comfortable, eye-friendly viewing.

Better than Competition

- The Redmi 15 5G offers several segment-leading specifications
- Competitors A, F & Y can't match without asking you to pay for more.
- Competition models may look similar on paper, but they compromise on battery, display, or overall value.

Extensive Service Network

- Xiaomi's network across 650+ cities.
- Covering 19000+ Pincode ensures prompt after sales service and support with a minimal downtime.

Attack

50MP Dual Rear | 8MP Selfie Camera
Clear photos, detailed selfies, ideal for daily use.

More RAM, More Storage, More Fun!
Smooth multitasking & more space for everything.

Segment's Largest & Smoothest
17.53cm(6.9) Large Display | 120Hz Refresh Rate.

AI Circle-to-search | Gemini Live

Royale Design - premium in-hand feel.

Segment's Slimmest 6000mAh Smartphone
33W Fast Charging | 10W Reverse Charging.

Defend

AI Eraser | AI Photo Enhance | AI Documents
While features like AI Eraser, AI Photo Enhance and AI Documents are widely available on free third-party AI apps.

In fact, you can even upload your photos to Gemini and get the same edits with simple prompts.

We focus on high-value AI features like Google Circle-to-Search, Gemini Live and Overlay that deliver far more practical, day-to-day usefulness.
